**WHEELING EXECUTIVE ELECTED TO BOARD OF DIRECTORS OF  
FABRICATORS & MANUFACTURERS ASSOCIATION FOUNDATION**

ROCKFORD, Ill., Nov. 9 – James P. Bouchard, Chairman and Chief Executive Officer of Wheeling-Pittsburgh Steel Corporation of Wheeling, W. Va., has been elected to the board of directors of the Fabricators & Manufacturers Association (FMA) Foundation at the group’s recent annual meeting.

Bouchard will serve a two-year term on the 15-member board, which provides governance for the FMA Foundation.

The FMA Foundation serves as an educational, research and charitable organization to promote metal forming and fabricating technology in manufacturing.

“The FMA Foundation serves a vital industry role for our industry by educating and encouraging our youth to consider manufacturing as a future career path,” said Bouchard. “I’m committed to helping the FMA continue its important work in promoting and advancing the manufacturing sector’s position in this country.”

## BOUCHARD ELECTED TO FOUNDATION BOARD – ADD ONE

The FMA Foundation offers grants to not-for-profit organizations and educational institutions introducing young people to metal forming and fabricating careers in manufacturing, provides funding to organizations starting or expanding manufacturing camps for youth, and issues scholarships to students at colleges and trade schools pursuing careers in manufacturing.

More information on the FMA Foundation is available by visiting [www.fma-foundation.org](http://www.fma-foundation.org). Based in Rockford, Ill., the Fabricators & Manufacturers Association, International is a professional organization with more than 2,000 members working together to improve the metal forming and fabricating industry.

### **About Wheeling-Pittsburgh Steel Corporation**

Wheeling-Pittsburgh is a steel company engaged in the making, processing and fabrication of steel and steel products using both integrated and electric arc furnace technology. The Company manufactures and sells hot-rolled, cold-rolled, galvanized, pre-painted and tin millsheet products. The Company also produces a variety of steel products including roll formed corrugated roofing, roof deck, floor deck, bridge form and other products used primarily by the construction, highway and agricultural markets.
